- CSS3 / Tailwind CSS
- JavaScript/JQuery
- Webflow/Wordpress
- ReactJS
- Adobe AI, PS, XD
- PHP/PhpMyAdmin/MySQL
- Version Control (GIT)
- Responsive Website

Work Experience

Cebu Technical and Vocational Assessment Training Center Academy (Voctech Senior High School) Aug. 2024-May 2025

Junior IT Specialist / Part Time Teacher (Full-Time)
1 School Year

- Successfully designed, developed, and maintained the official school website using HTML, CSS, JavaScript, PHP, and Tailwind CSS.
- Led the development of core LMS modules, including Accounting and Attendance, enhancing administrative efficiency.
- Built responsive, user-friendly UIs with Tailwind CSS and implemented dynamic frontend behavior using jQuery.
- Integrated and managed backend data communication using AJAX for real-time interactions with RESTful APIs.
- Delivered basic web development lessons (HTML, CSS, JavaScript, PHP) to Grade 11 students in a hands-on, project-based format.
- Provided one-on-one technical support, live code reviews, and debugging assistance to help students apply best coding practices.

Freelance Front-end Developer (WFH - Part-Time) Dec. 2024-Mar. 2025
3 Months

Vapefactory | E-commerce store

- Successfully built a fully responsive and visually appealing React front end from scratch using Tailwind CSS.
- Implemented seamless SPA routing and page transitions with Inertia.js.
- Engineered complete cart and checkout flows, including user authentication, guest access, and form validation
- Enhanced performance through code splitting, lazy loading, etc.
- Created a shared Context API to manage cart state for both guest and authenticated users, including add-to-cart functionality.
- Integrated Axios and Fetch API for reliable frontend-backend communication.
- Built UI components (e.g., search bar, carousel, modals, buttons, etc.)
